

ENKOTEC PAYOFF TYPE PD01 & PD02

MAIN FEATURES

- ✓ **PD01 controls** - integrated in the NX series and MI01 nail machines.
- ✓ **PD02 external control box** - separate starter switch and speed control potentiometer to be used for offset adjustment of the velocity of the turntable.
- ✓ **Turntable** - driven through a helical bevel geared motor.
- ✓ **Speed control arm** - adjusts the speed of the turntable by means of a non-contact sensor.
- ✓ **Electro-magnetic spring-loaded brake** - stops the turntable instantly and safely when the payoff is switched off.

FACTS

Weight of coil/reel	Max 2,000 kg / 4,409 lbs
Outside diameter of coil/reel	Max 1,000 mm / 39"
Inside diameter of coil/reel	Min 280 mm / 11" - Max 620 mm / 23"
Height of gravity center	Max 0.6 x Outside diameter of coil/reel
Height of turntable	490 mm / 19"
Diameter of turntable	1,000 mm / 39" - 1,200 mm / 47" if required
Total weight of payoff	500 kg / 1,100 lbs
Number of rotations, turntable	0-200 rpm
Braking time	3 seconds
